MIRROR—THE ONE BEST BET IN ALL WESTERN CANADA

The Newest Town in Alberta. The Divisional Point of the Grand Trunk Pacific Railway to the Calgary Line, and the Junction of its Two Branches.

ON SECTION 28-40-22 W. 4, ON BUFFALO LAKE.

Within the past week there has been begun another of those new towns for which Western Canada is noted—towns which are settled in a day and grow in the space of a few weeks to important centres, larger in size than any but Westerners would believe could be accomplished save from many years of gradual growth, and transacting through its various business houses a greater volume of business than is usually seen in older towns in the East of several thousand population. With the building of the Grand Trunk Pacific railway through this district the settlers generally little thought that right in the heart of the very best farming district along its line would be established the most important station of the entire road. Indeed, it was not until President Hays, of the G. T. P. railroad system, announced some ten days ago that the townsite of Mirror was to be made the divisional point between Tofield and Calgary, and that it would also be the junctional point of at least two branch lines of the same company, that people began to think at all of this town as anything but a little way station. Within this ten days, however, business men and corporations have turned their attention to Mirror in a manner that means business from the drop of the hat.

Although the townsite will not be placed on sale until about the second week in July, and for that matter has not yet even been staked off into lots, business concerns have already begun to arrive and are "squinting" in tents as best they may and getting initial preparations completed so that immediately upon the sale of lots they may lose no time in getting up their buildings.

Among the earliest, and in fact the first of these is the Bank of Toronto, who pitched their tent on the townsite Thursday, May 25, and already have a gang of carpenters at work on a temporary office building which may be moved as soon as a lot can be purchased. The second arrival was the Reflector Publishing Co., which arrived with a tent and our first

load of printing machinery on Tuesday, May 30. Another large shipment of presses, type and supplies is on the way from the warehouse of a large type founder in Winnipeg, and upon its arrival will be installed with all possible speed. In the meantime the newspaper will be printed in the office of the Alix Free Press, who have kindly consented to do our press work until the arrival of our own news press.

Among others who are now on the way here and expect to arrive within the coming week are an auctioneer, real estate agent, hardware store, general stores, barber, livery man and several others, and these will be followed in rapid succession by every other sort of business concern.

The railway company are doing their full share to start the town off to a good beginning and their surveyors are now busy laying out the grounds on the west side of the track for the repair shops, roundhouse and yard trucks which the company expect to have completed before the end of the year. Immediately the surveyors have finished their part of this work they will begin staking off town lots, and these, it is expected, will be ready for sale about July 10.

Howe—Melvin

A very pretty wedding took place at Lacombe at 11:30 o'clock on Thursday of last week when Miss Jessie, only daughter of Mr. and Mrs. William Melvin, of Alix, was united in marriage to Mr. Cecil Benedict Howe, a well known and well-to-do young farmer three miles south of town. The bride who was attired in a becoming gown of natural silk, was attended by Miss Ella Toepler, and the groom was assisted by Mr. Gilbert Blake, of Acme. Only the immediate relatives of the contracting parties were present. After the ceremony Mr. and Mrs. Howe drove from Lacombe to their farm south of Alix, where they will take up their residence at once. Both young people are well and favorably known throughout the district, and their many friends will join in wishing them a full share of happiness and prosperity.

Looking at Ourselves.

This town isn't half bad.

R. Bagg was here on a buying trip last week, but found beef cattle a little scarce.

Canoing has begun. H. S. Oats on Tuesday evening made the entire trip down the creek to the lake and back.

School was closed a week ago until such time as permission may be given by Dr. Graham to reopen same.

Trains are becoming such a familiar sight these days that people no longer stop work to look at them. Some of the most hardened even refrain from saying "There's a train."

No service will be held in the Methodist church on Sunday next, but on the following Sunday the services will be held as usual, Sunday school being at 10:15 and preaching at 11 a. m.

As the Rev. W. S. Wilford has left Alix the regular services at St. Monica's will be discontinued. We understand that the Bishop of Calgary is sending another man to take his place in a short time.

"Mirror" is supposed to be named from the glassy surface of the lake. We believe it is named from the sleek, shiny and hopeful faces of the inhabitants who will amass much money and satisfaction here.

W. Carl McCormack, son of W. J. McCormack, arrived on Saturday last from Buffalo and will assist his father at the lumber yard. Mr. McCormack's household goods also arrived last week and Mrs. McCormack will come later in the summer.

On Thursday, May 25th, Dr. Graham was called to attend one of Tom Carr's children. He found it suffering from a mild case of Scarlet Fever, and immediately quarantined the family. All the stores and houses in town have been thoroughly disinfected, and in view of the precautions taken we do not anticipate any further spreading of the complaint. We hear that the boy is doing fairly well.

COMING FROM EVERYWHERE

President Hays, of the Grand Trunk Pacific, estimates that there will be five hundred "squatters" on Mirror townsite before the end of the present month, but he has estimated the number too low. There will be as near a thousand.

FILLING UP THE WEST

TWO MILLION IMMIGRANTS DURING PAST TEN YEARS

The Immigration Bulletin Just Issued Gives Actual Figures of the Gain to the Dominion Through Immigration—More Than One-third Came from Great Britain and About as Many from the States.

Ottawa.—During the past ten years Canada has received nearly two million immigrants of whom approximately, 750,000 were from Great Britain, and 700,000 from the United States. The immigration bulletin just issued gives the actual figures up to the end of the fiscal year, March 31, as 1,743,238 for the decade. Since then nearly 200,000 more have arrived, divided about equally between British and American.

According to occupation, about 65 per cent of the immigrants arriving from the United States are engaged in farm laborers who for the most part have settled in the prairie provinces. Thirty-eight per cent of the British number from across the line made entry for homesteads in the west. About thirty per cent of the British and continental arrivals were farmers or farm laborers while twenty-five per cent were classed as general laborers, and nearly the same percentage were classed as mechanics. The influx of negroes has totalled only a little over four hundred, while 10,000 Hindus have come. Of the British immigrants, approximately 500,000 have been English and 150,000 have been Scotch, and about 40,000 are Irish. The figures for other nationalities include the following: Austria-Hungarians, 120,000; Italian, 63,847; Hebrews, 52,637; Russian, 28,066; Swedes, 24,000; Danes, 18,415; French, 15,236; Norwegian, 13,785; Syrians, 5,232.

The distribution of the immigrants by provinces gives a good idea of their respective population growth. Saskatchewan and Alberta have never had a million immigrants during the decade, Ontario came next with 490,889; Manitoba, 399,823; Quebec, 253,820; British Columbia and Yukon, 188,269; and the Maritime provinces only 72,000.

Western Canada therefore got some 300,000 more new settlers than eastern Canada.

THE "FAVORED NATIONS."

The Population and Area of These Countries

The twelve favored nations about which there has been much talk and written in connection with Reciprocity, are given below with their respective areas and populations. These so-called "most favored nations" are entitled to the same tariff advantages as the United States under any Reciprocal trade agreement that may be adopted by Canada.

Area in square miles.	Population
Argentina	1,117,673
Aust. Hungary	42,240,428
Belgium	6,250,000
Bolivia	1,566,000
Denmark	147,000
France	32,450,000
Germany	32,450,000
Italy	32,450,000
Japan	32,450,000
Spain	32,450,000
Sweden	32,450,000
Switzerland	32,450,000
United States	32,450,000
Belgium	32,450,000

12,161,685 298,738,428

WANT LABOR MEN IN POLITICS

Trades and Labor Council Are Encouraging the Movement—Need of Labor Representatives

Ottawa.—As part of a propaganda drive for the coming election, the Trades and Labor Council of Canada, the executive of the Trades and Labor Congress of Canada which met here recently, decided to invite Premier Fisher of the Australian Commonwealth who is attending the Imperial Conference in London to make a tour of the Dominion delivering lectures in the principal cities on the practical application of labor politics to politics.

"Will more labor candidates than formerly be entered in the coming general election?" asked a reporter of President Gibson.

"The participation of laborers in politics," he said, "is under the control of provincial organizations in various provinces. We have three men now running in Nova Scotia. It has become very desirable for us to have members in the various provinces to explain and give prominence to various labor measures that come from time to time. We will see more labor candidates for Parliament coming out at the coming general election than ever before."

Delay in Vote of Reciprocity Bill

Washington.—The Senate will not vote on the Reciprocity bill until after June 12th for a vote on the joint resolution providing for the election of United States senators by direct vote of the people. Resolution already has passed the House. A Senator has announced the fact that the Senate's action would block consideration of the reciprocity or any other bills which might be reported from committee before June 12, and while he did not object to the final adoption of the motion he did not intend to hold his objection reluctantly.

EAGLE CHALLENGED AVIATOR

Monster Bird Attacked One of the Contestants in the Big Race

In Spain. San Sebastian, Spain.—Attacked by a giant eagle while sailing along on the last leg of flight in the Paris-Madrid aeroplane race, Gilbert was in grave danger for several minutes. The bird swooped down upon the aviator, apparently believing that the bright monoplane was some fantastic demon.

It landed on the front of the monoplane, and after reconnoitering for several seconds finally lunged directly at Gilbert's head. The bird struck the metal head piece which he was wearing, the bird flustered upward and then swooped down again. This time it missed the aviator and only cleared the propeller by a few inches. The aviator, at the same time, stirred up by the wind from the propeller blades further enraged the bird and with a shrill scream it pursued the monoplane, and made another swoop at Gilbert, trying to strike his eyes with its sharp claws.

Realizing his peril, Gilbert got out of his seat. His first shot went wild, but the second entered the body of the bird and it fell backward. Gilbert lost control of his monoplane for a second, but managed to get on an even keel just as the bird crashed to earth. He continued his flight unharmed, but he was compelled to alight shortly afterward, having covered only sixty miles.

DIAZ QUIETLY STEALS AWAY

President for Thirty Years—Few See Him Depart—Leaves for Mexico

Mexico City.—Porfirio Diaz, for whom during 30 years all Mexico has stood to one side hand in hand, stole from the capital with great secrecy at 2 o'clock in the morning. Only a few devoted friends whom he dared trust followed him to the station. He was bound for Vera Cruz to take the steamer for Spain.

The Juan Francisco L. Madro Jr. in a manifesto to the people of Mexico resigned the position of provisional president and called upon him by a convention of the revolutionists at the city of San Luis Potosi last October and called upon him to support Senor De La Barra, as the sole executive of Mexico.

Senor Madro has his forces at the disposal of Senor De La Barra and pays tribute to the character of the new executive, stating that he might well be considered "One of the Manifesto was Senor Madro's last act as provisional president.

Dominiens Were Not Consulted

London.—The Standard says the dominions, whose existence depends upon the maintenance of the British power, were not consulted regarding the declaration of London at the conference which declared that the final jurisdiction of war to a foreign court of appeal. Austria and Canada, which found no objection to New Zealand, which is giving a battle-ship to the royal navy, are exceptions to the rule. The Standard says it is understood that the premier of Australia, who put down the resolution, disappeared from the scene of London, when discussed by the conference, was persuaded by the other powers to modify his views before discussion.

Contented Canada Flying Under Jack

Edinburgh, Scotland.—Lord and long applause welcomed the message received from President Taft on the subject of Anglo-American arbitration which was delivered to the General Assembly of the Church of Scotland by Mr. J. R. Macdonald, of Toronto. President Taft's message voiced his well known enthusiasm in favor of a practically unqualified arbitration treaty and added: "Say to the assembly that it is my desire that Canada shall continue to prosper, flying the British flag and sharing with the United States the responsibility for North American civilization."

A motion making with satisfaction the treaty between the United States and Great Britain was adopted with acclamation.

Mounted Police Off to Coronation

Montreal.—The C. P. R. steamer Montreal, chartered for the coronation of the R. N. W. M. P., presented a gain appearance on the water, morning when the ship sailed for Liverpool. The police arrived at the ship about 2 o'clock, and the band commenced. So trained were they that the use of signals was unnecessary. As the ship moved down the river, the animals walked as though they had been used to the operation. As a matter of fact, it was the first time that the animals had seen a ship. The vessel cut off from the water to the accompaniment of cheers from the men on board and from the sight-seers on shore.

Germany Will Arbitrate With U. S.

Washington.—Germany has expressed her willingness to enter into negotiations with the United States for a general arbitration treaty along the lines laid out by the Secretary of State Knox in the tentative draft of this government's proposal now in the hands of German officials. The German ambassador at Washington, conversed this information to Secretary Knox by cable. A copy of the basic proposition of the United States.

TAKING CENSUS OF DOMINION

ARMY OF ENUMERATORS WILL COMMENCE WORK JUNE 1

It is Confidently Predicted That the Count Will Give the Dominion of Canada a Population of Eight Millions—About There are Three-Quarters of a Million People in the West.

Ottawa.—Early Thursday morning the count of heads will begin all over Canada. Every man, woman and child living in Canada at midnight on the first of June will be counted if two or three hundred commissioners and their armies of enumerators do what is required of them.

Realizing his peril, Gilbert got out of his seat. His first shot went wild, but the second entered the body of the bird and it fell backward. Gilbert lost control of his monoplane for a second, but managed to get on an even keel just as the bird crashed to earth. He continued his flight unharmed, but he was compelled to alight shortly afterward, having covered only sixty miles.

DR. RUTHERFORD QUILTS OFFICE

Will Leave Ottawa to Reside in British Columbia—His Health Has Failed

Ottawa.—Dr. J. G. Rutherford, Dominion Live Stock Commissioner and Veterinary Director General of Canada, has tendered his resignation to the minister of agriculture, and has been accepted.

TAFT'S CONCLUSION

Farmers Shall Sell More to Canada Than They Will Buy

The National Grant, the representative body of the United States farmers, has concluded that the farmers of Washington against the passing of the Reciprocity agreement with Canada, which would open the Canadian market at Washington just recently and spoke in part to them as follows:

"I believe this treaty to be the best thing for the whole country, including Canada, that has ever been put before men and all because I believe it is flying in the face of Providence."

London.—The Standard says the dominions, whose existence depends upon the maintenance of the British power, were not consulted regarding the declaration of London at the conference which declared that the final jurisdiction of war to a foreign court of appeal. Austria and Canada, which found no objection to New Zealand, which is giving a battle-ship to the royal navy, are exceptions to the rule. The Standard says it is understood that the premier of Australia, who put down the resolution, disappeared from the scene of London, when discussed by the conference, was persuaded by the other powers to modify his views before discussion.

Keeping Negroes Out of the West

Winnipeg.—W. J. White, who has charge of immigration, has been asked to prevent the coming of Canadian government in the United States, says in an interview here, that the immigration of negroes from Oklahoma was likely to terminate soon.

Discrimination against the colored race in Canada has been partially removed by the decisions of the supreme court at Washington on question of the constitutionality of the laws. The churches are opposed to the movement, and the Dominion government has refused to consider it. It is recognized that the climate of Western Canada is unsuitable for negroes, and every effort will be made by the government to keep them in the south to show the folly of their attempting to make a livelihood in this country.

Wireless Will Girdle the World

Gloucester, N. S.—Communication by wireless from Glace Bay, N. S., to Dakar on the coast of French West Africa, is the astonishing feat that has just been accomplished by the Glace Bay wireless station. The signal was sent from this place to Eiffel Tower at Paris and from Paris relayed to the Dakar station in six minutes. So successful was the experiment that it is now announced that the British and Canadian governments will be linked together by wireless, and plans to this end are now being made. It is estimated that the cost of the project will be required to put this girdle around the world.

More Negroes Coming to Alberta

Regina.—It is understood in this city that the Hudson Land and Investment company is going to send extensively into the immigration business.

The company is now arranging to bring in a large party of negroes from Oklahoma for settlement in the Edmonton land district and in the territory of the Hudson Land and Investment company. The company has a plan to bring two carloads of these settlers into the country immediately. It is estimated that the cost of the project will be required to put this girdle around the world.

LOW PRICES IN THE STATES

Markets for Farm Produce on the Down Grade

There has been a decided recession in the various markets for consumable commodities in the United States since a year ago, when the great body of consumers in different parts of the republic protested against the high cost of living in the form of anti-trust feeling and by many petitions to the government at Washington. The Pioneer Press, of St. Paul, Minnesota, recently published the following table which shows prices of various commodities in April, 1904, and April, 1901:

Cornmeal, per bush.	210	150
Lard, per lb.	18	12 1/2
Cheese	17 1/2	13
Rolls oats, per cwt.	250	130
Ham (whole)	14 1/2	12 1/2
Bacon	15 1/2	14
Flour (best) per bbl.	6.00	5.00
Eggs	25	15
Butter (best grades)	33-35	28
Chickens	24	18
Steak	22	10
Potterhouse	26	24

The above statement combined with the recent prediction of Mr. Patrick Cudahy, former of United States packers, that 4-cent hogs would be the next sensation at Chicago, seems to point quite definitely to an era of low prices across the line for everything that the farmer produces. Reciprocity with the United States, according to these facts would only let the Canadian farmer into a country where trade is so demoralized and markets are falling.

DR. RUTHERFORD QUILTS OFFICE

Will Leave Ottawa to Reside in British Columbia—His Health Has Failed

Ottawa.—Dr. J. G. Rutherford, Dominion Live Stock Commissioner and Veterinary Director General of Canada, has tendered his resignation to the minister of agriculture, and has been accepted.

Discrimination against the colored race in Canada has been partially removed by the decisions of the supreme court at Washington on question of the constitutionality of the laws. The churches are opposed to the movement, and the Dominion government has refused to consider it. It is recognized that the climate of Western Canada is unsuitable for negroes, and every effort will be made by the government to keep them in the south to show the folly of their attempting to make a livelihood in this country.

Winning to Edmonton Waterways

Ottawa.—Work of surveying the route of a waterway from Winnipeg to Edmonton is being continued this year under the direction of Mr. V. J. E. Macdonald, chief of the public works department. It is expected that by directing particular attention to the problem of reservoirs and storage dams, a great deal of costly dredging will be avoided. The waterway, when completed, will provide for a ten-foot channel from Winnipeg to Clear Lake and six-foot channel to Edmonton. It is expected that the work of construction will be commenced shortly after the survey is completed. As compared with other Canadian waterways, most of the construction will not be heavy, but the long stretches of navigable water.

England's Population 36 Millions

London.—The provisional returns by the census office give the population of England and Wales this year as 36,075,248, as compared with 32,527,548 in 1901. While most of the cities and counties show increases, there are a few, particularly in Wales, where there has been found an actual decrease. Greater London's population has increased to 7,252,463 from 6,581,403 in 1901. This increase is felt in what is known as the outer ring, showing that the people are moving away from the crowded center. The county of London, including the city of London and boroughs immediately about it, show a decrease from 4,550,257 in 1901 to 4,222,941 in 1904.

Belgian Horse Ranch Sold

Calgary.—What is generally admitted to be one of the finest ranches in Alberta, the Belgian Horse Ranch, recently sold to the city of Calgary. The ranch is situated on the banks of the Elbow river, comprising in all 2,400 acres of land and stock. It is one of the finest and best equipped Belgian horse ranches in the world, and has been sold by the owners, R. H. Salaman, R. X. Salaman, and Cecil Cohen, all of Herts, England, for the sum of \$100,000. The purchasers take over the entire arrangement, the stock, the buildings and everything pertaining to the ranch.

Arbitrators Will Convene at Frank

Meleek.—A meeting of the arbitrators effected by the present strike was held here recently, and as a result the arbitration board will reconvene at Frank some day this week. The date will be fixed definitely by the chairman of the board, Reuben W. Gorder, who is now in Winnipeg. The session was attended by all of the operators, was most sensitive, and beyond the fact that they have not been able to meet the miners, nothing could be learned of the nature of their deliberations.

BUILD MANY BRANCH LINES

G. T. P. WILL HURRY RAILWAY CONSTRUCTION IN WEST

President Hayes Announces that His Company Will Build 445 Miles of Branch Lines in the West This Year—Will Complete Branch Lines to Toleda to Calgary—Will Tap New Country to Immense Coal Fields.

Winnipeg.—Charles M. Hayes, president of the Grand Trunk Pacific railway, arrived in Winnipeg recently. He expressed satisfaction with the line from Ft. William to Winnipeg, over which he came.

Speaking of branch lines in the west, he said that it was hoped to complete some 545 miles this year. The branch from Toleda to Calgary will be completed. Already 80 miles of track have been laid from Toleda to Red Deer, and this year another 145 miles will be finished.

On the Battledore branch 50 miles of track would be constructed, named by from Olan to Battledore. From Regina on the Regina branch, the track would be laid for 110 miles to a point immediately south of Grifflin.

Then there are the Regina and Moose Jaw lines to be constructed, another 40 miles.

Several new lines would also be laid on the Prince Albert branch and a contract had been let for the construction of 50 miles of the branch from Bigger to Calgary.

In answer to further questions, Mr. Hayes said that the company was tapping entirely new country by a line from Bitter Lake on the main line about 120 miles west of Toleda, through the Pacific Coast fields as well as those of the Yellow Head Pass. This new line, which is called the Alberta Coal Track, was hoped to construct 60 miles of that branch, also a branch to the Mountain Park Coal fields.

The Grand Trunk Pacific would have at least 1,000 miles of track about 1000 miles of branches in operation in Alberta and Saskatchewan.

FIRST RETURNS OF CENSUS

Very Sparse Population in the Far North—Hudson Bay District

Ottawa.—Canada's first census report, showing a population of 1900 for the whole of the country, is now in the hands of the census bureau. The return shows that the population of the territory along the west coast of Hudson Bay north from Port Churchill to Chesterfield is about as far as the trappers and Eskimos of that territory penetrate. The figures were gathered in the most sparsely populated by the Northwest Mounted Police patrol at Churchill.

Of the total population of this great area only about two hundred are whites, the balance being Eskimos and a few Indians. Ten years hence, with the advent of the Hudson Bay railway, which will be under construction by the government a few months hence, and with the development of Hudson Bay as the new route for trade between Europe and western Canada, the next census will probably show more thousands than there are now in the Hudson Bay district, with the exception of Arctic and Antarctic regions, the district is one of the most sparsely populated in the world.

Victory for Portuguese Republic

Lisbon.—Perfect order prevailed at the elections for the constituent assembly which were held throughout the country. In thirty out of fifty-one constituencies the votes were disputed and the government, the Portuguese Republic party, the Independent Republicans and the Socialist parties in the other constituencies. The monarchists abstained from putting forward candidates, declaring that the elections presented no guarantee of liberty or security. Instead they circulated all kinds of rumors of attempts against the government. The polling was heavy and the first result indicated a majority of 251 for the regular Republicans.

Geological Survey Parties Out

Ottawa.—A number of geological survey parties have left or will leave shortly for the field, to take up their summer work. The parties are headed by Mr. J. H. Reynolds, who has left for the Kettle River district in British Columbia, where he will look into the mineral possibilities there. W. L. Chapman, an official of the American geological survey, who is in Canada last year, is again working for the Dominion survey, and with S. G. Macdonald, who is in charge of the land, where they will be quartered in a region north of that surveyed last year.

Trades Unions Favor a General Strike

Vancouver, B.C.—By a big majority the Trades and Labor Council decided that there was possible such cases where there were no international agreements, organized labor in Vancouver should throw down the gauntlet to the employers. The council on June 5, in sympathy with the general strike, here. Whether another attempt in the future will be made to effect a settlement between the employers and the master builders and thereby prevent a general tie-up is not known.

Reflections.

The customary thing for a newspaper to do in its first issue is to make an elaborate bow through its editorial column to the public. We are not here with any of the fancy stuff, but wish to state tersely that we are here and intend to stay as long as the grub stake holds out, and at present indications look good. We have politics of our own when occasion arises, but they will be strictly independent. We are here for business, and will put forth our best endeavors to merit your patronage.

OUR POST OFFICES

Until permission can be obtained from the post office department to change the name of the Lamerton post office to Mirror and remove it to this townsite, which will probably be within the next four or five weeks, Mirror business men will be obliged to get their mail at either Lamerton or Alix. To those just coming into town we would advise to have their mail come to the Lamerton office, as it is only about a mile from the townsite. A number of the firms opening up here come from Alix, and will naturally continue to transact their business through the Alix post office. The advertisements of the different business men give the name of their post-office to facilitate inquiries. The Reflector will use the Alix office until an office is opened here under the name of Mirror.

JUST A START

If this copy of the Reflector does not appear as newsy as you think it should, kindly remember that we are publishing under difficulties, and ask yourself what you could do yourself in the newspaper line out on the prairie in a town consisting of two tents and a population of four. We expect to improve each week, as will also the size of the town. Watch developments and you will be surprised at both the paper and the town in the next three or four weeks.

Early Breaking.

Those who are thinking of doing valuing this year should plan their work to commence as early as June is possible. Whether the land is broken deeply at first or loughed shallow and backset later, it is essential that the sod be thoroughly rotten this fall. Sod does not plough so easily, nor does it decompose so rapidly during the dry weather, as moisture is one of the essential agents in decomposition. If left until the early rains are over, the ground soon becomes hard, and turns up in great chunks, which cannot be properly cultivated, but lies in a rough state until moisture is completely gone. The frost will have very little beneficial action on land in this condition, and the crop the following year will be of little account.

To break the land early in the season is not the only requisite; it

should also be done well. It is an eyesore to see some of the newly broken fields throughout the prairie provinces. Acres are seen only half-turned, or with a very rough surface, where the plow was cutting too wide. What can be expected from land like this when a crop is grown? Where such conditions exist, the grass usually has the start of the crop, the following season because it was not killed the year before. The idea should be to cut every inch of the sod; invert it all, and then compact it with a packer to exclude the air and hold the moisture, thus making conditions ideal for the sod to decay.

On early breaking, much less discing is required to cut up the sod, and grass will not bother the grain crop after two or three good strokes of the disc harrow.

Post card views of the new town on sale at Tate's, Alix.

Had His Collar Bone Broken.

In a game of association football at Alix on Thursday evening of this week that was well marked with accidents, Mr. F. Kirkman, hardware merchant of Nevis, had his collar bone broken. Fortunately Dr. Graham and Dr. Hines, of Lacombe, were near at hand and set the bone, but it will be some time before Mr. Kirkman will be able to return to work. Robert Masson, of the C. P. R. freight depot at Alix, also suffered a dislocation of the knee cap.

The game was the second one of the season at Alix, and was between the Alix and Nevis teams. The game resulted in a score of 3 to 0 in favor of Alix.

Call at Tate's, Alix, for
Strawberries, 25c a box.
Pineapple, 25c each.
Bananas, 10c a dozen.
Oranges, 50c a dozen.
Fresh Ripa Tomatoes, 25c a lb.
Tall Tate that you saw this in the Reflector.

Methodist Conference Closed.

The annual conference of the Methodist church, convened at Calgary on Tuesday, May 23rd, was concluded at 3:30 o'clock on Wednesday morning last, the ministers working late into the morning that they might get home as soon as possible. The attendance was the largest at any Alberta conference, denoting the steady increase in the church workers of the province. Those who attended report a most enjoyable and interesting time. In awarding the stations to the various ministers a larger amount than usual of shifting was done. The following is a partial list of the stations awarded:—

Springvale, Thos. A. Bowen; Red Deer, R. Pearson, Chas. H. Henstis, Jas. R. Earle, R. S. Longley; Indian Industrial Institute, Arthur Barner; Coal Banks, Mr. Coalworth; Lacombe, F. W. Locke; R. W. Daigleish; Blackfalds, H. J. Newton; Olive, L. R. McDonald; Alix, W. J. Whelan; Lamerton, D. Young; Battle River, J. E. Collins; Stettler, B. Ribbert; Bashaw, W. B. Sinclair; Kildare, J. C. Anderson; Raven, V. M. Gilbert.

**PRINTER
WANTED**

THREE QUARTER SECTIONS

Three miles from town, 80 acres broken, all fenced and crossed fenced, two houses on the property. It is rented for this year. Purchaser will get one-third of all grain and hay this year. This is a remarkably good buy, as land all around it is held at \$25.00 and \$30.00 per acre.

PRICE, \$15 PER ACRE.

Improved quarter section 1 mile from town, \$2,500

MCDONELL & CRUIKSHANK

ALIX, - ALBERTA

MR. FARMER

Would you sell your cream for CASH

1.—I pay for the Cream or Butterfat, for each and every shipment by express money order. When you ship me a can, the next day you will find your money can at your station, and payment and statement in your Post Office.

2.—I pay a premium of 2 cents per lb. of Butterfat in all cream which reaches this Creamery in first-class condition, clean and fresh, in flavor.

3.—I am prepared to quote prices on Butterfat, two weeks in advance, so you will know just what to expect. If you are not ready to ship now, ask for my quotation when you are ready. I shall be glad to quote you the time.

4.—Every can of cream will be tested upon arrival, and your statement will show Weight, Test, Grade and Value of Butterfat contained in each shipment. Hence, you will be in a position to know exactly where you are at, and what your cows are doing each week.

5.—I pay the express charges on all shipments, and if you have no railroad shipping cars to begin with, I shall furnish you with a sufficient number until you find, as you undoubtedly will, that the Central Creamery gives you satisfaction; return them you may pay no wholesale price for the cream cans, and they become your own property.

6.—You can ship your cream any day, except on Sundays, and on any train you like.

7.—As to my financial standing I can refer you to the Bank of Montreal, Calgary.

P. PALLESEN, CALGARY, ALBERTA,

BOX 2078

An Army Court Martial

There Was Not Much in It at First, but a Good Deal in the End.

By F. A. MITCHELL.

Copyright by American Press Association, 1911.

Colonel Auchincloss of the United States army was a stickler for army etiquette, discipline and other such matters as pertain to military life. He was in the artillery, and a colonel of artillery in the regular army is a very big man. Then, too, Colonel Auchincloss commanded a big fort on the Atlantic coast, and that made him a bigger man still. Outside the fort was a collection of hotels used by persons from all over the United States as recreation resorts, all of whom looked up to the colonel commanding the fort as a sovereign.

One day when dress parade was taking place in the fort, witnessed by a flock of persons from the hotels outside—principally young ladies—the colonel left his office to go to his domestic quarters. As he was passing the door he saw a young lady, who was the head "beat off," marching before the men, turning and marching back again, what for no one knows except

MISS JONES.

A STENOGRAPHER LIT ON THE ORGAN.

cept that it has been a part of the ceremony of dress parade for an indefinitely long period. Lieutenant Rob Phillips was adjutant of the post. Now, the adjutant is an important man at all military ceremonies, especially dress parade. As Colonel Auchincloss passed Lieutenant Phillips was standing, like all the rest, stiff as a ramrod, while the band was marching back and forth. Lieutenant Phillips was suffering at the time from a sore spot on the tip of his nose. It so happened that a hungry fly lit on the organ and, finding such sustenance in the sore spot as especially suited its taste, began to put lustily.

There are nerves in noses, especially on the under side. The organ obtained by the adjutant was excruciating. Nevertheless, owing to the important part he took in the military ceremony he was the last man on the ground who should infringe upon military discipline by raising his hand to shake away the fly. Such a breach of uniformity would be especially noticeable in every one and if made by the adjutant would constitute a frightful example to the rest of the corps on parade.

Furthermore, it was expected that every man would be at "eyes front." Phillips held his eyes in that position rigidly. Consequently he did not see the approach of the commander on his right. Just before the colonel came within his range of vision Phillips' eyes had passed the limit of human endurance, and his hand went up to brush off the fly.

Colonel Auchincloss stopped, cast a terrible glance at the transgressor and the adjutant, and he knew that he was done. He was then preparing for examination for his proposition to be captain and adjutant, and such a faintest breath of discipline as raising a hand to brush a fly from a nose spot on his nose would be a great detriment to his attaining the rank to which he aspired.

The next day Phillips was obliged to read on parade an order relieving himself of the duties of adjutant of the post and appointing another in his place. After the ceremony he went to his quarters wishing that he might be permitted to challenge the colonel and run his through to the hilt. Persons suffer by their mistakes, their misfortune, and injustice. It is only in the last of these cases that retaliation can possibly be advisable, and even then to girls and boys it is usually the best policy. Lieutenant Phillips was in a

state obliged to do this, but a spirit of animosity toward the colonel was evidenced in him which prompted to burst into a flame and bring on an army scandal.

Now, it happened that Colonel Auchincloss, who was retiring at his age, was a bachelor, and Lieutenant Phillips unknown to each other had intentions with regard to a young lady who was stopping at one of the hotels outside the military reservation. What a fly had started a woman developed. Miss Marjory Dressler was much flattered at the attentions of the mighty commander and much pleased with those of his subordinate. As soon as it became evident to both officers that they were rivals the fire burned hotter in the breast of the younger, and the older drew a tighter rein in his official intercourse with his inferior.

Then came Lieutenant Phillips' examination for promotion, and, owing partly to his being absorbed by love rather than his studies and partly from the breach of discipline for which his colonel had reduced him from the rank of adjutant, he was denied a captain's commission.

The young man, conceiving that this deprivation was the result of the colonel's animosity toward him, preferred charges against him for tyrannical treatment.

The commander of the department in which all this happened was an uncle of Miss Marjory Dressler. His official position prevented his expressing any opinion in the matter, but his wife, not being military hand-picked, took a secret part in the proceedings. Miss Dressler was her niece's child, and the young lady, inasmuch as she was not being military hand-picked, took a secret part in the proceedings.

The former being a prominent artillery officer, that arm of the service took great interest in the trial, some siding with and some against their comrades of the big guns.

Of course the officers' families took great interest in the trial, and, as there is intercourse between the different corps, the trouble spread to the infantry, cavalry and the staff corps. Thus by the time the court was ready to try the case the whole army was involved.

The members assembled in full uniform. The first proceeding was the reading of the charges, which was very numerous, and the specifications, which were very numerous. The first specification began thus:

"In this, that on or about the 17th day of —, 19—, the said plaintiff being on dress parade, a fly lighted on his nose, the defendant being very sore and painfully tender—"

At this point the president of the court intervened.

"However," drew that specification should be cashed. Lieutenant Phillips is not being tried because Auchincloss is being tried on a charge of "Gruay."

It was explained to the president, who was a man of a soldier that he could not be anything of a lawyer, that this incident of a fly lighting on the adjutant's nose was the beginning of the trouble, whereupon he was satisfied, and the reading proceeded.

There was one matter that could not be introduced into the trial. That was the rivalry between plaintiff and defendant for the hand of Miss Dressler. But everybody knew that this had added to the drama of the trial, and that had lighted on the adjutant's nose had been put out by the back ground. When the trial began and all through the army the question was asked, "What's this rumpus between Colonel Auchincloss and Phillips?" The reply was invariably, "Why, you see, a fly lit on Phillips' nose when he was on dress parade," etc. But after awhile when the question was asked the reply would be, "No one knows, but if you want to get at the bottom of the matter you'll have to look for a woman in the case!"

It was found necessary to bring witnesses into government expense from the uttermost points of the world, and when a witness was summoned it was necessary to wait for his or her arrival. So the case dragged and was very expensive. It at last was found necessary to ask congress for a special appropriation to carry it on.

The matter was then taken up by the secretary of war, who sent for the adjutant and the colonel and asked them to give the facts. The judge advocate began:

"Why, you see, Mr. Secretary, when Lieutenant Phillips was on dress parade a fly lit on a sore spot on the end of his nose."

"I haven't time for that," snapped the secretary. "Give me the gist of it."

"There's no gist to it."

"That there some way of getting rid of it?"

"That depends."

"On what?"

"On whether."

The secretary was informed that the matter was kept up by a niece of the commander of the department who couldn't make up her mind whether she wished to marry the colonel or the lieutenant.

"Go tell her to come to me—that I have something to say for her."

Witness answered the man

soon in person and expectancy.

"What is your ambition?" asked the secretary.

"To be the wife of a military attaché at a foreign court."

"Name the man you wish for a husband and he shall be appointed."

"Lieutenant Rob Phillips."

"That will do. Good morning."

The next day Lieutenant Phillips received his charges against Colonel Auchincloss, and as order was published promoting him and relieving the military attaché on duty at Paris and appointing Captain Phillips in his stead.

There are those who give Mrs. Phillips part in this celebrated army case deeper interest than appears on the surface. These persons maintain that she had some sort of an ax to grind, and if not from the first at least from the moment it appeared that the trial was a burden to the government she put the ax on the grindstone. Be this as it may, it is always dangerous for a woman to discover that she holds the balance of power.

When accused of this lady smiled and says, "Let those laugh who laugh last."

Outwitted His Critics.

A minister living in an Aberdeen, where coast town and preached a sermon which a skipper, one of his parishioners who traded to London, took home with him. He had read to his family the Sunday before from a volume of sermons which he had brought down with him.

On the Sunday following he, with two brother skippers, took the book to the church and started the sermon. The minister, in due time gave out a text which, true enough, the skipper found in the index of his book and pointed out to his friends.

The minister then proceeded with the sermon, going on word for word with the sermon book for a sentence or two, which greatly excited the skipper, who, with a cry on each side, kept tracing the words in his book after the minister and saying, "See till him, see till him."

The minister, who used himself to tell the story, said:

"I looked down and saw what they were at, so I turned over two leaves at once, and they never clapped out upon my tail after that."

New Vegetable Is Sought.

English horticulturists are turning attention to the possibility of finding a new vegetable in the ground that, which, though of excellent flavor and wholesome for food, is disregarded by all but "pigs and children."

Ground nuts, otherwise called "peanuts," or "groundnuts," have been known from time immemorial as a favorite delicacy with village boys, who are now generally being educated by their parents in the English world, where they grow best, by kiln-drying. In the early times their merits were well known, and they grew profusely "almost everywhere" among Londoners, but especially in a field adjoining Highgate, on the right side of the village, and likewise in the new field to the south of Highgate, near the way that leads to Paddington from London.

Cairo Street Warnings.

In oriental countries the recklessness of drivers of vehicles and their danger for foot passengers are very marked, but in Cairo they have series of curious ones with which they warn the pedestrians. The particular part of his anatomy which is in danger, as thus: "Look out for your left foot," "Look out for your right foot," "Look out for your left hand," "Look out for your right hand," "Look out for your left eye," "Look out for your right eye," "Look out for your left ear," "Look out for your right ear," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your right knee," "Look out for your left ankle," "Look out for your right ankle," "Look out for your left foot," "Look out for your right foot," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your right knee," "Look out for your left ankle," "Look out for your right ankle," "Look out for your left foot," "Look out for your right foot," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your right knee," "Look out for your left ankle," "Look out for your right ankle," "Look out for your left foot," "Look out for your right foot," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your right knee," "Look out for your left ankle," "Look out for your right ankle," "Look out for your left foot," "Look out for your right foot," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your right knee," "Look out for your left ankle," "Look out for your right ankle," "Look out for your left foot," "Look out for your right foot," "Look out for your left leg," "Look out for your right leg," "Look out for your left arm," "Look out for your right arm," "Look out for your left head," "Look out for your right head," "Look out for your left neck," "Look out for your right neck," "Look out for your left shoulder," "Look out for your right shoulder," "Look out for your left back," "Look out for your right back," "Look out for your left hip," "Look out for your right hip," "Look out for your left knee," "Look out for your W. C. Wilkinson, who for thirty-six years has been secretary of Toronto's Board of Education, prides himself on his youthful spirit and on his activities in getting about, in spite of the fact that it was not yesterday that his hair turned grey. So, with an appreciation of the incident being at his expense that he is of what happened to him in Ireland a couple of years ago.

Mr. Wilkinson was a party of about sixty on a trip through the Old Land. In a hotel at which they stayed in Killarney, he was not ready to him one morning. "And how did your good wife sleep last night?" "I don't know," was his answer. "You don't know?" said the maid. "My wife is about three thousand miles away," said Mr. Wilkinson. The maid looked at him from head to foot and then said, "Oh, I beg your pardon. I took you for another little old man."

Homesteader at 102.

That it is never too late to work has been proved by Mr. Louis Carpenter, aged 102 years, who has applied to the Saskatchewan land office for a homestead. Mr. Carpenter is a strong, vigorous and active, and he is anxious to procure a prescription in addition.—London Standard.

Parental Assist. nec.

Burns.—What I was young my mother always used to sing me to sleep at night.

Shells.—Yes, women are good at that sort of thing, but it takes the father's voice to wake a fellow up in the morning.

Star Fading.

"Do the stars have to be repaired, pap?"

"I never heard that they did. Where do you get that idea?"

"I have been reading about fixed stars," as I supposed that somebody had to fix them."

The Reporter and the "Chaw."

Judge Morgan, who is very fond of pipe tobacco, is not the only member of the Ontario Bench who is fond of chawing an intellectual stimulant. The late Justice Ferguson, known as an expert on the question of duress and special pleadings, was also an expert judge of the "weed," and was accustomed to use it incessantly. A reporter who had formerly been employed in his law office, and knew the judge well, dropped in one day, found a vacant desk, and incidentally noticed that a pipe of tobacco was lying within reach. With a rapid glance around the room, he grabbed the tobacco, took a stealthy bite and determined bite and prepared to decamp. To his horror he saw Judge Ferguson regarding him over the top of a screen, behind which he had shortly before retired in order to wash his hands. But the judge saw the humor of the situation and stopped the flight of the intruder by exclaiming, "Take a good chaw, my boy. Take a good chaw while you're at it."

Guardian, Mason and Lever of Sport.

Thirty years in the law office, as student and partner, is the record of F. W. Harcourt, K.C., Toronto, who is the new Grand Juror in the Grand Jury, the governing body of capital offenses in the jurisdiction extending from the Ottawa River to the Yukon. He was born at Cayuga, Ont., fifteen years ago, and was educated at Cayuga High School and Upper Canada College. He entered the law office of Dr. John Hoskin, K.C., and later became a member of the firm—McCarthy, Osler, Hoskin and Harcourt. Since the time when Dr. Hoskin resigned the position of Chief Guardian of Indians for Ontario, some two years ago, Mr. Harcourt has held that position.

His great hobby is sport. He used to go in for cricket, rugby football and foot-racing, and he is now a member of several prominent clubs.

Looking Backward.

"Were you nervous when you proposed to your wife?" asked the sentimental person.

"No," replied Mr. Meekton, "but if I could have foreseen the next two years I would have been."

Three Injured in Run-Away

Alta, June 5.

While Mr. and Mrs. A. J. Rolands were driving home from town on Saturday, one of their horses stumbled in a gopher hole and fell, throwing Mr. Rolands completely over the dashboard and on to top of the team. He managed to clear himself of the team before they started to run, but one side of the buggy passed over him, bruising him considerably. Mrs. Rolands jumped from the back of the buggy, sustaining a sprained ankle. Sissey, their little girl, had hold of one line, and attempted to turn the horses into the fence, but they turned the buggy so short that it was overturned, with the little girl beneath it, striking her on the back of the head. She was picked up unconscious, with a severe cut across the back of the skull, and was brought back to the hospital. Dr. Graham dressed the wounds, after which she was removed to the home of H. W. Panrucker, where she and her mother remained until Sunday.

The buggy was smashed to kindling wood.

ATTEMPTED MURDER AT RED DEER.

Chief of Police is Probably Fatally Wounded by Hold-up Man.

Red Deer, June 2.—George Bell, chief of police here, was probably fatally shot here last night by a masked man whom he discovered in the act of holding up two citizens at the point of a gun. The chief came around the street corner just at the opportune moment as the robber was holding a cocked revolver in the faces of H. G. Munro, a tailor, and Geo. Grant, a printer. Although it was twelve o'clock at night it was so near the centre of the town that Bell did not think it was a holdup, but a joke being played by someone. Springing towards the man

with the gun intent upon impressing upon him that the joke was too practical, he was greeted with a couple of shots. The first one hit him fair in the side of the back as low as the abdomen, and he dropped like a log. As he fell a second shot was fired, passing close to his head and taking a piece out of his cap. The man then made his escape in the darkness.

The chief was carried to the hospital, where after a consultation by four doctors a delicate operation was performed, but it is thought that the chances for his recovery are exceedingly slight.

Officers early Friday morning began to scour the country for suspects, and were joined by a detachment of the Boy Scouts, and a party of the latter discovered their man about eight o'clock sleeping in a clump of brush near the fair grounds. His name is Francis Kelley, and he is not unknown around the town, having been working at odd jobs about town since early in April. He was given a preliminary hearing this afternoon, which was adjourned until Monday. A black leather mask which was found near the place where he was hiding is believed to have been worn by him, and was used as evidence. The officers believe they have the right man.

ALIX JOTTINGS

Alix, June 5.—Len Murray was a business visitor at Edmonton last week, returning Wednesday.

Rev. and Mrs. J. J. Graham left on Friday for their new charge at Eskline.

Mr. and Mrs. G. M. Gilbert, formerly of this place, but now of Grangeville, Idaho, are here on a visit.

F. R. Mitchell returned on Saturday from attending the annual meeting of the Masonic Grand Lodge at Banff.

Born.—At Alta, on Friday, June 2, to Mr. and Mrs. E. A. Tate, a daughter.

Gilbert Blake, of Acme, was a visitor in town last week, and attended the Howe-Melvin wedding on Thursday.

The local base ball team journeyed to Bashaw on Saturday and won a game from that town by the score of 12 to 3.

Mr. and Mrs. E. L. Trickey left on Friday morning for a trip to England, and will on their way at their old home at Brockville, Ont., and at New York.

In a slow game of baseball on Thursday last between Gadsby and the local team our boys won by a score of 12 to 4. Our boys will go to Gadsby for a return match.

Rev. Sidney Pike returned on Wednesday from the Methodist Conference at Calgary. Mr. Pike will no longer be stationed here, having been transferred to Queenstown. Rev. W. J. Whelan has been assigned to this charge.

The General Railway Signal Company, of Rochester, New York, are installing one of their signal systems at the junction of the C. P. R. and G. T. P. By the use of this system it is impossible for two trains to get on the diamond at the same time, as if either goes contrary to the signals a system of ground rails lifts the train from the rails and places it on the ties in such a manner that it is impossible for it to upset or to sustain more severe injury than a shaking up on the ties. The workmen expect to

complete the work in about six weeks time.

MANY NEW BRANCHES

Charles M. Hays Discusses the Work Which G. T. P. Has Done in the West

WINNIPEG, May 20.—Charles M. Hays, president of the Grand Trunk Pacific Railway, arrived in Winnipeg yesterday. He expressed satisfaction with the line from Fort William to Winnipeg, over which he came.

Speaking of branch lines in the west, he said that it was hoped to complete some 645 miles this year. The branch from Telford to Calgary would be completed. Already eighty miles of steel have been laid from Telford to the Red Deer river and this year another 143 miles would be finished.

On the Battleford branch 50 miles of track would be constructed, namely, from Olan to Battleford.

From Regina on the Regina boundary branch, the track would be laid for 110 miles to a point immediately south of Griffin.

Then there was the Regina and Moose Jaw line to be constructed, another 46 miles.

Seventy-two miles would also be laid on the Prince Albert branch and a contract had been let for the construction of 50 miles on the branch from Biggar to Calgary.

In answer to further questions, Mr. Hays said that the company proposed to tap an entirely new country by a line from Elkville on the main line, about 130 miles west of Edmonton, through the Pacific Pass coal fields, as well as those of the Yellow Head Pass. "Of this track, which was to be called the Alberta Coal track, we hope to construct 60 miles, also another to the Mountain Park coal fields."

"The Grand Trunk Pacific would have at the end of the year altogether about 1,000 miles of branches in operation in Alberta and Saskatchewan."

You will probably be surprised
but we are determined to do it.

WE ARE GOING TO GIVE AWAY

A PAIR OF OVERALLS or JUMPER, your own choice

with every man's suit of clothes we sell this month.

The suits are the well-known SOVEREIGN BRAND we have always stock, and are guaranteed for FIT, WEAR and style. Prices \$10, \$15, \$17.50

Don't miss this offer the suits themselves are worth the money. You get the overalls FREE.
